and Troubleshooting Worksheet

Fixture Designed By: _________________________
Fixture Built By: ____________________________
Built For: _______________________________
Fixture Serial #: ___________________________

1. All pressure gauge readings checked and verified at “0” operating pressure.______ Yes ______ No
2. Main system operating pressure read from the gauge mounted on the clamping system pump ______ psi or inlet air pressure from air gauge on boosters ______ psi, booster ratio ______:______.
4. Fixture operating pressure read at fixture gauge ______psi, side A______psi, side B
5. Pressure limit circuits pressure checked:
   Side A ______ psi Components & location: ______________________________________
   Side A ______ psi Components & location: ______________________________________
   Side A ______ psi Components & location: ______________________________________
   Side B ______ psi Components & location: ______________________________________
   Side B ______ psi Components & location: ______________________________________
   Side B ______ psi Components & location: ______________________________________
6. Sequence operations set to:
   Side A ______ psi Components & location: ______________________________________
   Side A ______ psi Components & location: ______________________________________
   Side A ______ psi Components & location: ______________________________________
   Side B ______ psi Components & location: ______________________________________
   Side B ______ psi Components & location: ______________________________________
   Side B ______ psi Components & location: ______________________________________
7. Fittings checked, secure, no leaks, proper type, not restrictive.______ Yes ______ No
