Compact Air/Hydraulic Pump

- Suitable for operating either single or double acting systems.
- Valves can be mounted directly on the pump or remotely, no external sub-plate is necessary.

Valve Needed 55-8213-00

- Suitable for most single fixtures and small pallet systems
- Maximum working pressure 5,000 psi
- Maximum air pressure, 85 psig
- Noise level, 75 Db. at four feet
- Long life, shown to perform over three times longer than comparable equipment.
- Adjustable and non-adjustable air filter regulators are available.

No Valve Needed 55-8213-01

- For Single Acting Systems only.
- Control valve built-in, no external valves are required or recommended.
- Mounting hardware included.
- Easily operated by hand or foot; press to pump, press to release.
- Pump does not run unless treadle is pressed to activate function.
